

TRUE COLORS

In SCHOOL, instructors have their own personality types . Different Career and Technical Education disciplines and other courses have their own characteristics. It will be helpful to be aware of these characteristics in relation to your own personality preferences. You can then look for strategies that will help you be successful in personal interactions with instructors, students, and employers.

We make certain assumptions about ourselves and others that may or may not be on target. Success in part is dependent upon being aware of those assumptions, sometimes challenging those assumptions, and learning how to interact with others in a more thoughtful way.

	Gold	Blue	Green	Orange
Automotive	Tools in place Sequencing of tasks matters	Focus on the job first, people second	Work needs to be 100% for safety/appearance	Often look to press the boundaries for efficiency and fun
Health Occupations	Orderly environment is critical for helping others	Caring about people	Looking for best processes possible. Accountability is life and death	Fun can be an escape from day-to-day stressors
Technology	Step-by-step, keep solutions within the guard rails	Solutions first, personal interactions second	There's always a better way	Creatives in other disciplines like music, art, gaming...
Office Systems	Procedures and processes matter. Well created products are important	How solutions interface with the human element matter	Considering the best software to deliver the message or analyze information	Creatives in other disciplines like music, art, gaming...
